CFI Training Courses

CFI Training & Certification

Installers: The following two-day courses focus on hands-on, skills training and knowledge for the professional residential flooring installer. Two year's experience is required for the certifications offered. Installers are welcome to opt out of the certification if the two year requirement cannot be met; however, a minimum of 6 months is required to attend for training only. Hand tools and supplies will be furnished during the training event.

Ceramic Installation

Topics include: Job site Evaluation, Effects of Moisture, Substrate Preparation, Grades, Balancing Floors, Setting Materials, Transitions, Tile vs Stone, Membrane Systems, Radiant Systems and more.

Hardwood/Laminate Installation

Topics include: Factory Finishes, Nail-down, Glue-down, Floating installations, Staple/Cleats, Job Site Evaluation, Grades, Sub-Floors, Effects of Moisture, Radiant Systems and more.

Residential Resilient Installation

Topics Include: Effects of Moisture, Use of Stripping Agents, Patching Compounds, Types of Flooring (rotogravure, LVT, inlaid, linoleum, felt-backed, vinyl-backed, vinyl-composition tile (VCT), Vinyl asbestos tile (VAT) and rubber), Wall Base and Transitions, Installation Characteristics and more.

Residential Carpet Installation

Topics Include: Seaming of New Products, Powerstretching and wall-trimming Techniques, Pattern Matching, Correcting Bow, Skew and Pattern Elongation, Stair Upholstery without the use of staples and more.
